## If You Want to Recycle Small Furniture in Atlanta, GA, Consider Donating It to American Kidney Services

Those who want to recycle small furniture in Atlanta, Georgia have the option of using their unwanted possessions to benefit others. That's because American Kidney Services accepts donated furniture, as well as a wide selection of other items, and uses all the proceeds generated from those donations to support patients with kidney disease. We do this by partnering up with the American Kidney Fund, a charity that provides direct financial aid to patients with kidney disease. By helping these patients pay for essentials, such as housing and power bills, we give them the ability to use their money to cover the cost of treatments.

If you're interested in contributing to our mission, consider donating clothing, toys, or any other approved objects. If you'd like to specifically recycle small furniture by donating items to our Atlanta location, simply ensure your pieces are:

- Not upholstered
- Able to be carried by one person
- Small enough to be loaded into our collection vehicle

Any furniture that meets the requirements above can be picked up from your driveway by one of our collection vehicles when you fill out our [online form](#). If you'd rather drop off your donations, you may leave them at any Value Village location near you. Alternatively, if you have smaller items you wish to donate, you can leave them at any of our [drop boxes](#) around Atlanta, GA.

To ask any questions about how to recycle small furniture and other unwanted belongings to American Kidney Services, [contact](#) us today.
